

General Instructions

1. Our cell phone numbers are:
2. Commands and directions to be executed are indicated in **ALL BOLD CAPS**. See illustrations on page 2
 - 2.1. **TURN** indicates a command to change direction of travel to a different road from the road you are currently on. **TURN LEFT** or **TURN RIGHT** are the two standard commands.
 - 2.2. **BEAR LEFT** or **BEAR RIGHT** indicates a turn of less than 90 degrees to the left or right from straight-ahead travel.
 - 2.3. Bend indicates the road you are travelling on simply changes direction. A bend in the road is not a **TURN**.
 - 2.4. TEE refers to an intersection where the road you are on intersects with a second road to force a **TURN LEFT** or **TURN RIGHT** command (straight-ahead travel not possible). It is roughly shaped like the letter “T”. It is considered a TEE only if you are approaching from the bottom, not from the ‘arms’.
 - 2.5. Y refers to an intersection where the road you are on intersects a second road forcing a **BEAR LEFT** or **BEAR RIGHT** turn command (straight ahead travel not possible).
 - 2.6. **PROCEED** means to drive or continue on in the forward direction.
 - 2.7. **MOVE** is used as in making a lane change.
3. (STOP) indicates a stop sign.
4. (LIGHT) indicates a traffic control light such as a standard three color traffic light, flashing red lights, or flashing yellow lights
5. (YIELD) indicates a red or yellow triangular yield sign.
6. The word CAUTION identifies situations related to safety (e.g. limited sight distance) or to help stay on course (e.g. street signs partially hidden) or for your comfort (e.g. seriously rough road surfaces).
7. Intermediate landmarks may be called out to help you stay on course. Text as seen on signs will be identified inside quotation marks, e.g. Sign on right “Caution Left Turns”. Landmarks are usually signs or structures that are prominent and relatively permanent.
8. *Text in italics is informational and has no relationship to staying on course, it can safely be ignored.*
9. Mileage columns: left is cumulative distance along the course, right is intermediate distances.
10. Obey all applicable laws and rules of the road. State law requires slower moving traffic to keep to the right. Drive at your own pace and allow others to do the same by using turnouts. This is NOT a race - it is YOUR responsibility to operate your vehicle in a lawful and safe manner.
11. Reset trip counter as you leave the parking lot. The data recorded below are for your own information.
